

LIFE BIOREFORMED

Implementing a Mediterranean biorefinery to boost forest management through the production of added value products

LIFE19 ENV/ES/000544

LIFE BIOREFORMED aims to boost the sustainable Mediterranean-forest management by upgrading an existing biorefinery using torrefaction and pyrolysis to produce renewable chemicals and fuels from forest biomass.

Duration: 2020-2024.

The LIFE BIOREFORMED project has received funding from the LIFE Programme of the European Union.
